H. R. COBURN'S

OIL WORKS

ESTABLISHED 1812.

H. R. COBURN'S TALLOW OIL

This Oil has a quality so entirely different from any other, that it is impossible to describe it. It is a great labor saving substance, and will keep any machinery in motion for a length of time, without the use of any other oil. It is a powerful lubricating preparation, and is much better than any other oil in use. It is a chemical compound, that is prepared with metal oil. It is like cream to the skim milk. Entire dissolution of gummy matter, rendering it thinner and more free, and will not gum, chill, or clog in the coldest weather, and is thoroughly and electrically tried.

This Oil is a great favorite with engineers, who say it is the only oil that will run in steam cylinders. For Locomotives, Steam Engines, Woolen, Cotton, Flax and Silk Machinery, it is unequalled. It is light, and will run with the least friction. It will do all that is promised with. The Winter Tallow Oil will run at thirty degrees of Fahrenheit.

Which quality and price are considered, this Oil will be found at the head of the list, for it is a known combination of the best oils with which economy, safety, and satisfaction can be secured to the user. This oil has been in use for one to two years, in some of the first establishments of the country, to which reference will be given.

H. R. COBURN'S Winter Lard Oil, equal to any in the market. It is made with great care, and will stand cold weather.

H. R. COBURN'S EXTRA OIL,

Is made with care, from the best selected Lard Oil only. Its very unusual year shows its superiority. It is pronounced by all who have used it, and examined it, to be the Rubrum and Lard Oil standard for all machinery and bleaching. It will stand the cold, and the attention of buyers is particularly invited to it.

WE WILL THE BANGOR JOURNAL INFORM US WHAT CANDIDATES IT SUPPORTS FOR THE PRESIDENCY AND VICE PRESIDENCY?

An Appeal to Facts.

We must ask pardon of our readers for once more occupying some space in reply to the Bangor Journal's personal abuse of Col. Fremont—promising that we will hereafter practice important malice to pass in silence. The Journal of yesterday, however, appeals to "facts," and as we have promised to show how impudently it has lied in at least one of its charges, we feel bound to make good our promise.

In order to do so we present below a portion of the debate in Congress upon the payment of the Huttman drafts, which took place in January and February 1856, and which is sufficient to settle the whole question which has been raised against him in that matter and to prove his assailants to be blunderers.

On the 16th of January, Mr. Phelps of Missouri called up a bill for the relief of Col. Fremont from the heavy brought against him in London on the Huttman drafts.

After some remarks, Mr. Jones of Tenn., said:

I wish to make an inquiry of the gentleman who reported this bill. I wish to know if Col. Fremont has ever got the said money, to the proper officers of this Government for the manner in which he expended the proceeds of these drafts.

Mr. PHELPS. The officers of the Army were charged to institute this very investigation. They have, after making an investigation, now, that these demands are still existing against the Government of the United States, and *ought to be paid.* In my opinion, sufficient.

Mr. JONES. That is not the point upon which I put the inquiry. It is not whether he drew the drafts, or the drafts are outstanding against the Government, but it was his business and duty, in settling his accounts with the Treasury Department, to account for the proceeds of these drafts, and show in what manner he expended them for the benefit of Government. Until there is some evidence upon this point, I cannot vote for the proposition.

After some further debate the bill was referred to the Military Committee, with the understanding that they should enquire into the points suggested by Mr. Jones and others.

On the 12th of February, the Military Committee reported in favor, through its chairman Mr. Gorman, for the immediate relief of Col Fremont.

Mr. JONES, of Tennessee. I wish to inquire of the gentleman who reported this bill back from the Military Committee, have such examination been made as to ascertain whether or not Col. Fremont has ever settled with the Government, and *accounted to it for the proceeds of the bills drawn?*

Mr. GORMAN. It is proposed to pay the sum $19,000. I will observe, that for the satisfaction of the House and the gentleman from Tennessee, that there is upwards of $6,000 for which there are no vouchers on file. That amount was paid to the contractors, but the vouchers are not yet filed. Colonel Fremont has not vouchers, and the accounts are in such a state of confusion. The evidence is before me, not clear and satisfactory. The Committee on Military Affairs called before them an officer of the Army who was with Colonel Fremont, who testified to facts which caught to satisfy the House that *every dollar has been accounted for.*

After a debate, in which Letcher, Richardson, Keller, Brown and others made various objections and asked numerous complicated questions, the matter was brought to a point as follows:

Mr. RICHARDSON. I do not think there ought to be any fog or doubt about this matter, and it can and be ascertained, I think, by reference to the accounts that have been sent in by Colonel Fremont, or charged against him in the Department. I would inquire of the gentleman from Indiana if he has examined the accounts between Colonel Fremont and the disbursement here? If not, those accounts have not been settled. If there is a portion of them which never it was accountable for by Fremont and allowed by the Department? And what are the facts as they appear at the Department in relation to this matter? It seems to me that that point ought to cover the entire case.

Mr. GORMAN. All these suggestions that have been made by the gentleman from Virginia, by the gentleman from Maine, and by the gentleman from Illinois, were whispered into my ear outside of this Hall. We passed this bill in the Committee on Military Affairs upon evidence which we thought at first satisfactory, and I was ordered to report it to the House. At the next meeting of the committee, I suggested that information had come to my ears which gave me reason to doubt the correctness of this claim of $19,500, and I asked the committee myself, as the bill had been put into my hands to report, that for some other member of the committee should investigate the whole of this question, to see how Colonel Fremont got this money, *what he got it for, how he expended it, and whether he got any vouchers for it.* I therefore went to the proper Department to ascertain the facts of the case. I found that the Board heretofore appointed to adjust the California claims had passed upon this identical claim, of $16,500 and allowed it.

Upon examining the papers in relation to this claim, I found vouchers for the certain debts, drafts, and requisitions, of which I took a copy. But I was still not satisfied with the correctness of these drafts, when some persons suggested to me that there were the receipts of Mr. Reading, the paymaster. Upon examination, I found the *receipts of the paymaster* for the following sums:

Drafts in favor of Huttman.

18th March, 1847	$5,000 00	
Do.	4,000 00	
Do.	6,000 00	
Do.		$15,000 00
Do. (premium)		4,500 00
		$19,500 00

Turned over to Paymaster Reading:

Rec'ved 21st March, 1847		$562 50
Do. 29th do.		1,225 01
Do. 30th do.		250 00
Do. 31st do.		37 50
Do. 21st April		2,305 09
Do. do. do.		5,770 16
Turned over to Quartermaster J. R. Snyder.		
Received 24th March, 1847		$450 00
Do. do. do.		450 00
Turned over to Commissary General of Subsistence, B. J. Headley:		
Received 29th March, 1847		$450 50
Do. 2d April		450 00
Do. 17th do.		900 00
		$14,225 75
Amount for which no vouchers can be found		$5,274 25

The above statement is made from vouchers which were left by Colonel Fremont, which I have also in my possession. Every suggestion which has been made here this morning was made before the paymaster; every point which has been raised by the gentleman from Virginia, [Mr. Letcher,] or the gentleman from Illinois, Mr. Richardson, or the gentleman from Maine, Mr. Pike, was made to me, and I went to the Department, and the various points having possession of those vouchers, and *examined the facts for myself.*

I was then asked by the gentleman from Mississippi, Mr. Brown, what Col. Fremont wanted with all the money? Sir, I took a copy of the requisition of the paymaster appointed by the President of the United States. Here is a copy of the requisition:

"WASHINGTON, March 31, 1847.

"SIR: The sum of five hundred and sixty-two dollars and fifty cents is required for the payment of the troops of the California battalion, very respectfully, your obt. servant, J. B. READING,

"To his Excellency J. C. Fremont, Gov. California, Lieut. Col. Commanding California Battalion.

"This is the requisition made upon Col. Fremont for the money. Now, here is the receipt:

"Received, Angeles, March 31st, 1847, the sum of five hundred and sixty-two dollars and fifty cents, in full for the requisition. J. B. READING,

"Paymaster California Bat. U. S. Forces.

"In this I required that the Quartermaster Mr. Reading should be present.

"The second requisition is in like form, and the signature is also proved to be genuine. It is for $1,225 01, and here is the receipt:

"Received on the above requisition the sum of twelve hundred and twenty-five dollars and one cent.

"J. B. READING, Paymaster.

"Angeles, March 29, 1847.

"No. 3. Receipt in the like form, for $250.

"Received on the above requisition the sum of five hundred dollars.

"J. B. READING,

"Paymaster California Bat. U. S. Forces.

"No. 4. Requisition on J. C. Fremont, Governor, &c., for the sum of $375.

"Received, Angeles, March 30th, 1847, on the above requisition, the sum of three hundred and sixty-seven dollars.

"J. B. READING,

"Paymaster California Bat. U. S. Forces.

"No. 5. Requisition 1st April, 1847, as above, for $3,770 00.

"Received, Angeles, April 2d, 1847, from Lieut. Col. Fremont, the sum of three thousand and three dollars in full of the above requisition, on account of the pay department of California, late as U. S. troops.

"J. B. READING, Paymaster.

"I took copies of vouchers amounting to $5,274 25 of the $19,500. This is the history of the whole matter.

Now Mr. Bangor, ourself says that the vouchers read to the House "did not at all refer to the Huttman drafts." The above statement, copied verbatim from page 595 of Vol. 26 of the Congressional Globe, shows how reliable are the Journal's statements.

The Chairman of the Military Committee read vouchers for the whole of the sum raised on the Huttman drafts, except $866, for which he had previously said that he had no doubt vouchers would be produced. And yet because certain members of the House and Senate required, in their zeal of caution, that a proviso should be added to the Bill, making it necessary for the Secretary of the Treasury to be satisfied in relation to the disposition of the money—because such an excess of caution such a proviso was demanded, the Journal says that the Senate "were without evidence, that this $19,500 had been appropriated to the public service." We here show that Congress had ample evidence that this money, which Fremont is charged with not making for his own purposes, for the charge is one of embezzlement, substantially, was ACTUALLY PAID OVER TO THE PAYMASTERS OF THE TROOPS, AND REMITTED FOR BY THEM. *And that every dollar of the vouchers is not disputed.*

Thus much for one expenditure of space we have shown, once for all, that the base accusations and insinuations in relation to these Huttman drafts are utterly false. And there is not the slightest doubt that all the other charges or rather insinuations against Col. Fremont are equally so. At all events, we shall not expend time or space in proving the falsity of any more of them—for we feel that the enemies of the Republican cause hope to accomplish by these assaults, is to withdraw the attention of the people from the great question of freedom really at issue; and we are not going to aid them in that object.

From various indications it is pretty certain that these articles against Fremont, published in the Journal, and by the gentleman who retailed the same "on 'change" round the country before our State election, and where efforts in all of him there produced tremendous gains for the Fremont party wherever he went, as shown by the returns on the 8th of September. His recent labors will probably meet with a similar return; and we recommend the Republican State Committee to secure his services until the election.

The Unitarian Convention.

The opening religious services of the Unitarian Autumnal Convention were held at the Union Street Church last evening.

An earnest and logical discourse was delivered by Rev. Mr. Hill of Waltham, Mass. from Philippians 1:9,10.

After the close of the religious services, the Convention was organized by the choice of the following officers:

President—Rev. Mr. Ball, of Providence.

Vice Presidents—Rev. John Pierpont, and Francis M. Sabine, Esq. of Bangor.

Secretaries—Rev. Mr. Bush of Brattleboro', and Rev. Mr. Barker of Cambridge.

The Church will be open this morning for conference and prayer, at 8 o'clock. The Convention meets at 9.

There will be a social gathering at Norombega Hall this evening.

THE PENOBSCOT MUSICAL ASSOCIATION commenced its session with a good attendance, yesterday morning. The President, Rev. Geo. B. Little, welcomed the members in some very appropriate remarks.

DEATH OF AN ACCIDENT. In the case of James Brennan, whose sudden death we noticed yesterday, Coroner Field was called upon to hold an inquisition upon the body. It appeared that Jeremiah Crowley and James Brennan, the deceased, after getting through the labors of the week on Saturday night, imbibed rather freely, and remained out late. On returning home through Main Street about three o'clock on Sunday morning, Crowley proposed that they should go up into his work-room in the third story over Crowell & Leighton's shoe store. Arrived there Brennan threw up the window and sat down on the edge, observing that he wanted the air. After remaining in the room awhile, Crowley proposed that they should go home, and for the purpose went towards the door. Suddenly he heard the sash fall, and looking round he found that Brennan had disappeared. Surmising the nature of the accident—Crowley ran down stairs and found his friend lying upon the pavement. An awning had broken his fall somewhat, so that he received no material external injury. Brennan lingered till Monday morning at three o'clock, and died from concussion of the brain. The jury rendered a verdict in accordance with the above facts.

DOMESTIC PARTRIDGES.—Yesterday, two fine, plump partridges left the woodland took "lodgings" in the garden attached to the house occupied by Capt. Sanford, near the Steamboat wharf. They were discovered by several young ladies, who called the attention of Joseph Taylor to the birds, and in a remarkably short time they were ready to be cooked. Joe allows himself a little time for gunning amusements, as the Agency of the steamer M. Sanford receives his nightly attention; but it is by no means safe for game to trust itself within the range of his blunderbuss, for it never misses fire.

By the last advices the London bakers were selling bread of the best quality at less 16 per cent, cheaper than it can be bought in Boston.

The Whig, with its usual *astuteness*, wishes to know the preference of Silas C. Hatch, Esq., of this city, one of the whig nominees for electors, of the candidates for the Presidency, and is anxious that he should inform The Journal on this point. We presume Mr. Hatch has no wish to conceal his opinion in the premises, as it is well known by those who put his name in nomination, what that opinion is. Will not The Whig cudgel its brains for another smart question?—*Journal.*

Perhaps we will, after the Journal has replied to the question which stands "still forbid" in our columns.

The Journal says that Mr. Hatch's Presidential preferences were well known by those who put his name in nomination." If so, it is a good deal more than can be said of the Journal itself. That pirat cal concern utterly refuses to hoist its colors.

In regard to Mr. Hatch, we will state what we *believe* to be the fact, although we should prefer to have it from himself—viz: that his name stands in the columns of the Journal as a candidate for Elector, *without authority*, and that he is utterly opposed to any candidate whom the Journal may be supposed to favor.

THE DANIEL WEBSTER. A despatch was received here yesterday, stating that the Daniel Webster would have to go to Boston for repair of damages.

There was a partial eclipse of the moon on Monday afternoon and evening, Oct. 13th, mostly invisible in this latitude. On Tuesday the weather was cool with wind from N. W.

CASTINE, Oct. 12, 1856.

Messrs Wheeler and Lynde:—

The Freemasters of Castine have raised a flag Staff, ninety feet in height, upon which they have hoisted a beautiful Ensign, thirty-three feet by twenty-two, manufactured by some of the public spirited ladies of the village, and inscribed with the names of our Candidates, and the motto, "Liberty and Union." It swells to the breeze very near the locality where some of our Democratic friends hung out the British flag on the Fourth of July, 1856.

W.

For the Whig and Courier.

FREEDOM'S TEARS. It is the practice of many inexperienced persons to collect and burn all the leaves that fall from their trees every autumn. This course is very unwise, for a better manure, especially for trees and vines, if composted, can hardly be found. Leaves and decayed wood are what nature in the thick growth every where in the woods. The leaves, therefore, should be carefully collected and placed in the compost heaps in the Fall, and in the Spring be carried to the roots of the fruit and ornamental trees.

Another practice of cutting the leaves from grape vines for the purpose of letting in the sun to the fruit to ripen them, is also unwise, for it defeats the very object designed to be obtained.

People do not realize that to destroy the leaves on trees or vines they destroy, or greatly injure the fruit also; for fruits cannot ripen perfectly without the aid of the leaves. It is considered by fruit growers immaterial whether the sun shines directly on the fruit or not; but it is of great importance that the sun should shine on the leaves which serves to ripen the fruit under them.

Leaves are therefore, essential both to the fruit and to the tree or vine.

CARPETS AT REDUCED PRICES.—We learn that on account of an *expected* change in business, that H. C. STEVENS, at *No. 222 Washington street, Boston*, is *determined* to sell out his *immense* stock of carpetings *immediately*, and we therefore wish to inform our numerous readers and the public of the fact, that they may avail themselves of this opportunity of purchasing goods in the above line at a *very low price*. We have bought many goods at the above named establishment, and can truly say that we were *well* satisfied with the numerous bargains; and we think he *never* offers greater inducements to purchasers than can be found in *any other* store in this city, as he is *determined* to close off his entire stock this fall, even at a great sacrifice; besides he has now on hand the most *extensive* and best *selected* stock of goods that can be found in any city in the New England States, and we cheerfully invite our friends and the public generally to give him a call.

(Special Notice.)

NUTRITIVE PHOSPHATE.—Dr. Alfred G. Hall, author of the New Theory of Medical Practice—the Nutritive Principle, can be consulted by letter or in person, on every form of disease. The benefits of this New Method of treatment are no quackery. Vegetable medicines are used reviving to the organs of digestion; and Nutritive fluids commence the work of restoration. He can give the best references; four years residence has secured the confidence of many of the first classes. Invalids treated successfully in any section of the Union free of postage. Prescription, medicines and letters of advice forwarded. No person received for a less term than three months.

Health Office (up stairs) No. 805 Washington street, Boston.

We refer our readers to John P. Lovell's advertisement in our advertising columns. We advise all in want of guns either at wholesale or retail, to give him a call.

SHOWING THEIR COLORS. A Buchanan paper has just been started in Syracuse N. Y. which thus avows its love for the peculiar institution" of Slavery:—

Standing upon the ample planks of the Cincinnati Platform, WE ARE NOT ONLY THE APOLOGISTS BUT THE ADVOCATES AND DEFENDERS OF THAT PECULIAR INSTITUTION. We claim for American Slavery that it is and has been one of the chief bulwarks of our liberty—while we claim that it has ameliorated the condition of the slave.

A young gentleman of this city, says the Syracuse Standard, called at an oyster stand a day or two since, and ordered a "dozen in the shell." The order was attended to in a moment, and when he attempted to swallow the first oyster, he felt some hard substance in his mouth, which he took out and placed on the stand beside him. After the whole were disposed of, he examined the hard substance, which he supposed to be a pebble, and discovered that it was a large and valuable pearl.—Various jewelers estimate its value at from ten to forty dollars!

MASSACHUSETTS MOLASSES. We are indebted to J. F. G. Hyde, Esq., of Newton Centre, for a specimen of molasses which he has manufactured from the Chinese Sugar Cane, grown upon his farm in that town. Mr. Hyde is confident that the cane be successfully cultivated, and with as much ease as Indian corn, producing an article of molasses as good as that now selling in the market for sixty cents a gallon, and doubtless sugar of an equally good quality. We understand that this subject is now exciting general attention in this community, and the experiment of its successful culture will be thoroughly tested.—*Boston Journal.*

HOW TO GET A WIFE WITH A FORTUNE.—Some months ago, I had occasion to recount to you the manner in which a young lady of this strange city managed in order to get a husband and a fair pecuniary start in the world. I have now a companion picture to offer you. A young man of fine family, though impoverished by the revolution, aspired to a post under government, to occupy which it was necessary to furnish a certain sum to deposit as security. Our hero could not obtain the requisite amount from his friends, and at last hit upon an expedient to put an easy end to the difficulty. He caused an advertisement to appear in one of the journals, as follows:

"A young man, occupying an honorable position wishes to marry a lady well brought up and possessed of two hundred and fifty francs."

Two hundred and fifty francs are just fifty dollars, and, as there are many women in the world who would be glad to purchase a young, handsome, and honorably connected husband, on such moderate terms, it was quite natural that the advertiser, in the course of three days during which his notice appeared in public, should have received many letters and applications. The young man addressed a note to each of the applicants, appointing a place and hour when he would meet them together, and politely inviting them all to look at him. On the evening indicated, they came, and, it is said, the company numbered full two hundred women.

When all had assembled, the young man "organized the meeting," and made a speech, in which he thanked these ladies for the honor they proposed conferring upon him. "But," and the self-possessed young gentleman, upon must understand, ladies, perfectly well, that I cannot marry you *all*; moreover, you are all so charming," (many of them were horrible old witches, cyclops, toothless, snuffy, and filthy) "it would be utterly impossible for me to choose amongst such lovely creatures. Thus, then, is my proposition: Consider me as an object put up at lottery. You number two hundred, make two hundred tickets of two hundred and fifty francs each, and the gross sum real and ideal of the fortune of the lady who draws the lucky number, and whom I pledge myself to marry immediately."

They hesitated a moment, but the youth was good looking, and the ladies were anxious to marry. One of them determined to accept the proposition, and the rest followed after, like a flock of sheep. As if to reward our ventureous young friend for his courage, his fortunate stars directed that he should fall to the lot of a youthful and pretty girl, whose greatest fault is an unhappy passion for practicing on the piano. True to his word, the young man married her, and at last accounts the couple thus strangely brought together, were passing a pleasant honeymoon. Have I given any of my sharp young countrymen a hint?—*Paris correspondence N. Y. Express.*

The tartish phrase of the old Scythian kings has lately been found near Alexandropolsk, in the Crimea. Hitherto the archæological student only knew that the catacombs of the Scyth an monarchs was situated somewhere in this district, close to the Dnieper, but the precise spot was not ascertained. Many curious articles of gold, silver and earthen ware were discovered within the tomb, which are to be transferred to Kertch, to enrich the museum there.

During the passage of ship Adirondack from a port in Ireland to New York, Sept. 1850, a young lady threw overboard on the Banks of Newfoundland, a bottle containing a letter addressed to a friend in Ireland. The bottle was picked up in August, 1856, just as the river Shannon by a person who was fishing, and forwarded to its address.

HORRIBLE DEATH OF A RUNAWAY SLAVE.—Fred Douglass's paper reports that a slave was recently secreted in a box and despatched to the North, in the care of Adams & Co's express. Upon arrival at its destination the box was opened when the poor wretch was found dead, his countenance horrible contorted, and his body drawn into a knot. It appeared on examination that the box had no air holes in it.

UNDERGROUND RAILROAD.—The Newburyport Herald says that a "fine black looking fellow of good size, who was worth full $5 a pound, drifted away from his master at Mobile a short time since, and was landed in this city, whereon he took a quiet departure northward on Saturday morning. He is in Canada before this."

While discharging the steamer Roanoke at New York a day or two since, the stevedore came across a box which on being moved was found to contain a negro who had taken this means to regain his freedom. The stranger at once returned to Richmond, with the unfortunate chattel.

HOW MANY DID IT DO WELL.—In Milwaukee 700 votes are cast for Fremont, and 1,200 names are on the Fremont Club. It has near 3,000 names. The largest Republican vote ever cast there was 1700. *Of the present club, 1400 voted for Pierce.* 850 *are the Police.*

Somebody, describing the absurd appearance of a man dancing the polka, says: "He looks as though he had a hole in his pocket, and was trying to shake a shilling down the leg of his trowsers."

A live shark weighing some 800 lbs was thrown upon the beach at Plum Island, near Newburyport, a few days since.

California Steamers,

Carrying the United States Mail

5th and 20th of each Month.

Greatly Reduced Prices. 60 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamer will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line having *Through Tickets*, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 56 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed for that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail, thus avoiding the detaining passengers by the Mail Line a *rare* and *short* passage, without any attention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets thus signed can be obtained of the *only authorized agent* for the Atlantic and Pacific Mail Steamship Companies, in this city, C. L. BILLINGS, Agent,

No. 10 Broad Street, Boston.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, and all Complaints,

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and valuable remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It at once sets out the seat of the disease, driving out all the elements of decay of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less than one-half exposure to patients. Thousands have recently just saved thousands within a few months from the use of

Mercurial Quacks,

and from premature graves. In cases of Retention, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing a

SAFE CURE.

It contains no narcotic, mercury, or other injurious drug, but is entirely VEGETABLE COMPOUND. It is very agreeable to the taste, free from any perceptible odor, and may be taken by persons of either sex without hindrance from business, or medical advice, and plain directions for use accompany the medicine. Whether, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine, if you can cure yourself, and thus prevent all exposure.

Truth Must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infection or matter from the patient, to a perfect state of *health and purity.* And as a medicine which must, sooner or later, come from the simple desire to the confirmed and despairing invalid, no equal is to be found, it being both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, and more constitutional disease arising from an impure state of the Blood, and is the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pimples and Swellings of the Bones, Tetter, Pimples on the Face, and all acute, Erruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal attestations produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all kindred preparations for such complaints in the proprietor or recommend. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in succession operation to take up the extractive matters and, in some sequence, are made frequently improperly made, and no unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest importance to the invalid, and to the community, that there should be certain and reliable preparations of uniform strength and possessing the most scrupulous care, and combining the best medicinal properties of the remedies employed, that long and patient study, and numerous experiments have been made, to arrive at the most perfect and reliable method of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with pleasure I announce I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength, one gallon of Syrup Sarsaparilla or decoctions as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIDGTON, Me., Feb. 20, 1856.

DR. J. C. AYER: Since the introduction of your Cherry Pectoral into this vicinity, it has proved the best remedy we ever used for Colds, Coughs, and Hoarseness. Its wonderful curative powers are daily manifested in the cure of the most distressing pulmonary complaints. Many who have used it, and who were given up by their physicians as incurable, have been restored to health by the use of this remedy. I have used it in my practice and in my family for the last ten years, and have never found its equal as a safe and reliable remedy for the diseases of the throat and lungs. Its effects are truly astonishing. Many cases of apparently confirmed consumption, which have baffled the skill of the most eminent physicians, have been cured by this remedy. Indeed, I do not hesitate to say that it will cure the most dangerous case of Pulmonary Consumption, if taken in season. Many of my friends and neighbors will testify to the truth of the above statements.

A. H. MOORLEY, M. D.

Prepared by DR. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Price 25 cents per bottle.

For sale by all the Druggists in Bangor, and by Druggists and Dealers everywhere.

Croup, Whooping Cough, Influenza,

Bronchitis, Asthma, and for the relief of Consumptive patients in advanced stages of the disease, this preparation has proved itself the most effectual remedy yet discovered. Many cases of alarming character have been cured by it in this town, and the adjacent towns, within the past year. Indeed, we have never known it to fail in a single instance, when taken in season, and according to the directions. Many of the most eminent physicians prescribe it in their practice, and we are constantly receiving certificates of its virtues from all parts of the country. Some of the most remarkable cures of Consumption on record have been effected by this medicine. Even patients in the last stages of the disease, who were supposed to be incurable, have been restored to perfect health by its use. Where there are tubercles in the lungs, this medicine will allay the cough, relieve the oppression, and insure a speedy cure. Public speakers and singers will find relief by taking a dose occasionally when the voice is husky, or the throat sore. Clergymen, who have used it for their congregations, say it relieves them from speaking or singing with ease. Many singers of the Jenny Lind Troupe have used it, and pronounce it the best medicine for clearing the throat and strengthening the voice. Sold by all Druggists in Bangor, and by dealers in medicine everywhere.

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cause a fine head of hair (old with a most luxuriant growth, remove all dandruff and itchings, cure all scrofula, and other cutaneous eruptions, such as scald head, &c. It will cure, also, all nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age. The following is from an distinguished members of the medical profession:

Cincinnati, O., February 21, 1855.

Professor O. J. Wood—Dear Sir: I have used your Restorative, and I am delighted with it. After having nearly lost for a long time, and having tried in vain, almost everything recommended for the purpose, I was induced, as a last resort, to give it a trial. I did so myself in the hands of a friend, and in a few months restored, with a good suit of hair, and the first one I ever used. My wife, who was troubled with dandruff to a great extent, has used it with the same success. Since I have resumed my profession, I have had a number of the young hair, appeared and grew rapidly in color and consistence the present time, and I have to ask, thank, and recommend it to the public, as the best, cheapest, and most reliable article ever offered. Yours, truly, D. C. M. RUPP.

Professor Wood.

CARYVILLE, Hillsville, June 19, 1855.

I have used Professor Wood's Hair Restorative, and have advised its use to several others. In their case it has done what I thought impossible, restored gray hair to its natural color. I can recommend the original color, and have no doubt, it can do the same for others.
